PLANNING:

Gas N Go at Weiss off Old Camp Rd and Alternate 40: Presentation made by City staff and the developer/design team with a representative from Weiss in attendance. Design and location of pumps shown. Copies of plans and information available at meeting. Citizen concerns: Well contamination, required reporting of underground tank and pump inspections, ingress and egress of gas customers and fuel delivery, increased traffic or congestion created by gas customers, loss of parking at Weiss Market. Of note: the Gas N Go will be located off to the side of the Weiss Market on the Alternate 40 side, will have 3 double sided pumps an awning/roof to cover pumps and a small booth for attendant. The Gas N Go will not be 24 hours and the Gas N Go will use the already established entrances and exits for the Weiss Market.

Water Tank Butterfly Lane: Presentation made by City staff. Rendering of tank colors and logo with associated costs available at meeting. Colors and logo were selected for increased longevity, repainting may be necessary in about 20 years, logo is hand painted. Timeline to have new tank online and dismantle old tank discussed, new tank should be up and running by early 2021. Discussion of how tank works and location of pumping stations reviewed. Directions that logo will face discussed. No antenna will be installed on top of new tank, but there are “knock outs” along base as needed. The mono pole in Hillcrest is not City equipment and will therefore not be affected by new tank. Citizen concerns: Why spires logo was not being used - increased cost (about double) presented.
